

SHREYANSH TRIPATHI

AI/ML Engineer

☎ 9156483369 ✉ dev.shreyansh369@gmail.com 🌐 Shreyansh-Dev369 📧 shreyansh369 📍 Mumbai, India

EDUCATIONS

Shankar Narayan College, University of Mumbai | Mumbai

May 2024

Bachelor of Science in Computer Science

CGPA : 7.5

- Pursuing a **Bachelor's degree** from **Shankar Narayan College**, affiliated with **University of Mumbai**.
- Expected completion: **April 2027**.

PROJECTS

AgeIS-X – AI-Powered Fraud & Phishing Protection Platform

Jan 2026 - Present

Developed by me

- Engineered an **end-to-end phishing detection system** using **TF-IDF** and **Logistic Regression** to deliver **real-time URL risk scores**.
- Executed **data preprocessing, feature engineering, and model benchmarking** (LSTM/BiLSTM vs. Logistic Regression) for optimal accuracy and reduced latency.
- Deployed a **FastAPI inference service** with JWT authentication, Redis rate limiting, and PostgreSQL persistence, integrating results into a **Next.js dashboard and Chrome extension**.

Technologies / Tools Used : Python, Scikit-learn, NLP, TF-IDF, FastAPI, Next.js, PostgreSQL, Redis, JWT

PropIntel AI – AI-Powered Real Estate Intelligence Platform

Jul 2026 - Present

Developed by me

- **Developed** an **AI-powered real estate platform** enabling users to discover, compare, buy, sell, rent, and invest in properties through **machine learning-driven analytics** and tailored recommendations.
- **Built** predictive models utilizing **XGBoost** and **Scikit-learn** for property valuation, rental yield estimation, investment scoring, and locality-specific market analysis.
- **Designed** intelligent recommendation systems, geospatial dashboards, and an AI-driven property advisor that offers personalized buy/hold/sell recommendations, fair price estimations, and market insights.

Technologies / Tools Used : Python, FastAPI, XGBoost, Scikit-learn, Pandas, NumPy, PostgreSQL, Redis, Next.js, TypeScript, Tailwind CSS, React Leaflet, OpenStreetMap, Docker

Mine Portfolio Website

Dec 2025 - Jan 2026

Developed by me

- **Developed** a **responsive**, high-performance portfolio using **React, TypeScript, Tailwind CSS, Shadcn UI, and Vite**, leveraging a modular, component-based architecture.
- **Enhanced UI/UX** and interactivity with **Framer Motion** and **GSAP**, integrating a **Supabase backend** and implementing user-friendly features like resume downloads and intuitive navigation.

Technologies / Tools Used : React, TypeScript, Tailwind CSS, Framer Motion, Vite, shadcn ui, Gsap

SKILLS

Databases : PostgreSQL, MongoDB, Redis

Frameworks & Libraries : FastAPI, Next.js, React.js, Tailwind CSS, Django REST Framework, Flask

Programming Languages : Python, TypeScript, SQL, C++

Soft Skills : Communication, Leadership, Problem Solving, Critical Thinking

Tools & Platforms : Git, GitHub, Docker, CI/CD, Kubernetes, GitHub Actions

PROFESSIONAL SUMMARY

Aspiring **AI/ML Engineer** with experience in building **machine learning** and **full-stack AI applications**. Proficient in **Python, Scikit-learn, FastAPI**, and data-driven product development. Passionate about creating scalable intelligent systems and solving real-world problems through **AI**.
